He also noted that he never sat on the Committee and does not assume to know more than the Committee members. Board member Hogan noted that the Committee should review fewer courses per meeting to ensure all courses are reviewed carefully. She noted that when she was on the Committee, reviewing over 100 courses was tedious and after about 50, it was difficult to concentrate. She thanked the Committee for their hard work and dedication. Board member Close noted that many of the on-line courses are review courses and not always quality information. He noted that not all are truly educational courses. Board Member Villafuerte noted that some of the on-line courses could be approved, but for a significant reduction in the units awarded.
